

# My Space, Facebook, Second Life, Webkinz... everywhere you turn you hear more and more about your kid's online activities.

Join Discovery Education's nationally recognized **Steve Dembo** for a discussion on what this means to you and your children.

Steve began his educational career as a kindergarten teacher. After spending four years in the classroom, he began serving as the school's Director of Technology. Steve joined Discovery as Online Community Manager for the Discovery Educator Network, and is a pioneer in the field of educational podcasting. His blog and podcast, Teach42, have served as the inspiration for hundreds educators. He is passionate about education and works with teachers around the globe in their efforts to explore and integrate new technologies in the classroom.

Steve has presented at IL-TCE, MACUL, TRET, METC, PETE&C, the Connecting & Learning Conference, and the DEN National Leadership Conference. He has also conducted numerous virtual presentations and hosts the DEN's EdTechConnect and Discovery Connect monthly webinar series. Steve lives in the Chicago area with wife and newborn son, Aiden Lefty Dembo.

- What:** Community night focused on online activities and their permanency, the good and the bad of having a digital footprint.
- Where:** Central Bucks High School West
- When:** April 8, 2008 – 7:00 PM
- For more information, please contact **Jennifer Dorman** at [jdorman@cbsd.org](mailto:jdorman@cbsd.org)
