## Making Inferences Scenario Sheet

**Directions:** Read the following scenarios. Write a possible explanation (inference) for each example.

1. You get woken up in the middle of the night, because you hear your dog barking loudly. What can you infer?

---

---

---

2. While playing in your backyard, you notice that one of your plants is not as healthy as the others. What can you infer?

---

---

---

3. While watching a much anticipated space launch on television, you suddenly learn that the launch has been scrubbed. What can you infer?

---

---

---

4. When reading the Salem News, you come across an article that discusses the issue of the rising coyote population on the North Shore. What do you think is contributing to this change in population?

---

---

---

5. While on a summer vacation, you are walking a beach in Cape Cod and notice that most of the rocks are extremely smooth. What can you infer regarding the rocks' texture?

---

---

---

Now it is your turn to make your own inference scenario. Please be creative and original. Also, make sure that are able to explain many possible inferences related to your interesting scenario.
