

Telling the Story with *PhotoStory 3 and DEstreaming*

Presentation Created by
Katie Knapp, VA DEN Leadership Council Chair

Quick and Easy Steps

1. Determine Story Subject
2. Gather Images from *DEstreaming*
3. Launch Photo Story
2. Import Images
3. Add Title
4. Add Narration
5. Add Music
6. Save

Determine Story Subject

What do you want your story to be about??

Some ideas...

My Summer Vacation

Life in Ancient Greece

Pictures of the Midwest Region

Jamestown 1607

Community Helpers

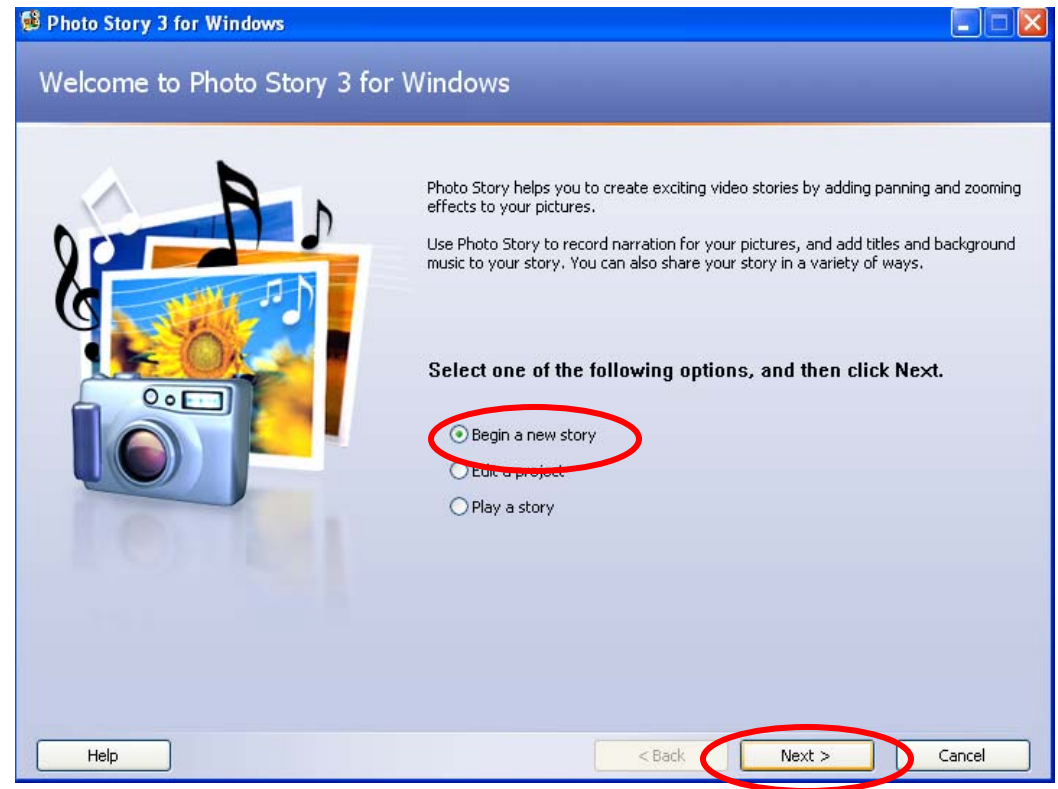

Gather Images from DEstreaming

Use the DEstreaming search feature to find five **images** for your story. Save them to a project folder.

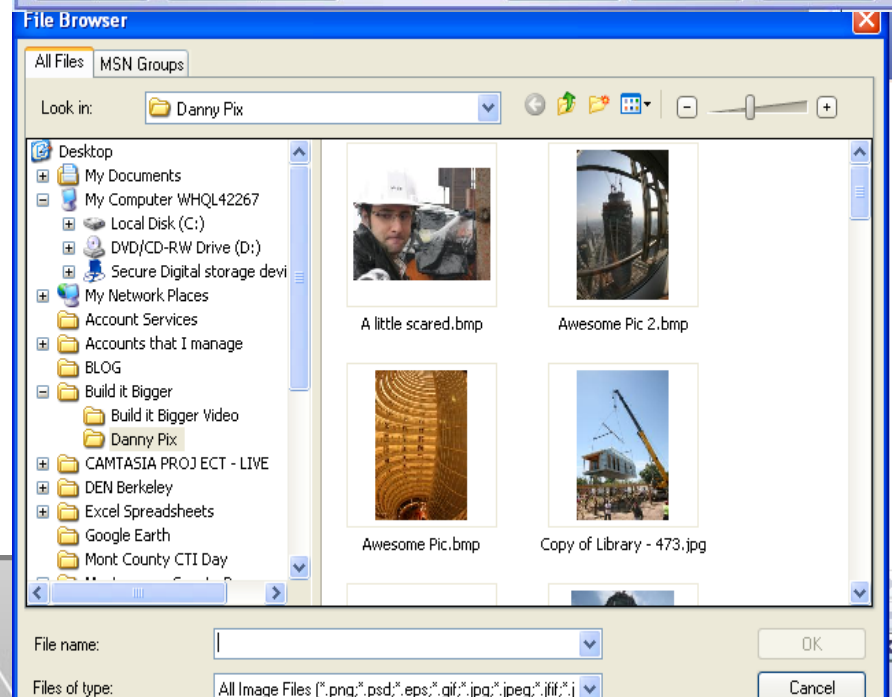

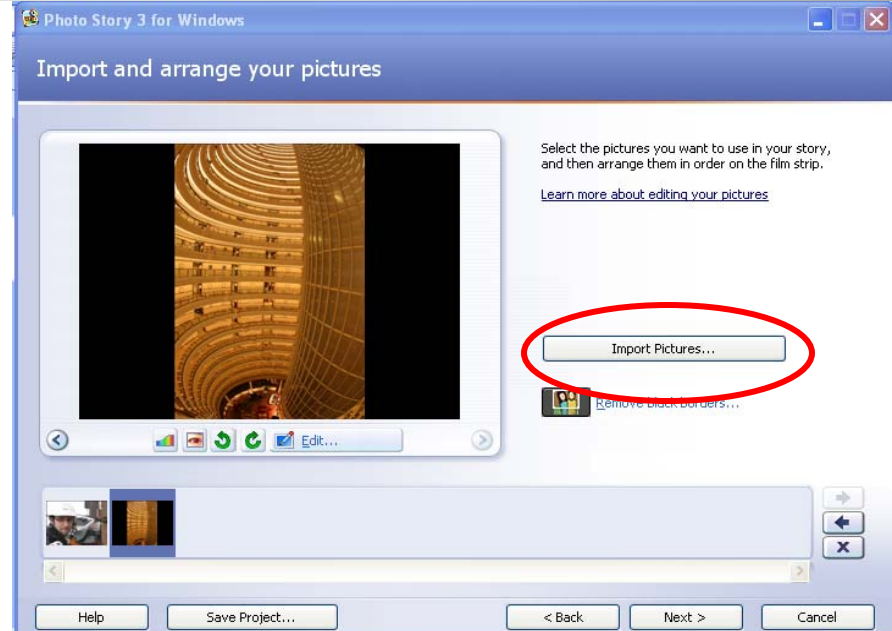

Now Let's Make Some Magic!

1. Launch Photo Story and Begin a new story
2. Click on the Next button

Importing Images

3. Click on the Import Pictures button
4. Navigate to the photos
5. Click on the Next button

Creating a Title

6. Select title photo
7. Key in title
8. Make changes to appearance (font, color, size, alignment)
9. Click on the Next button

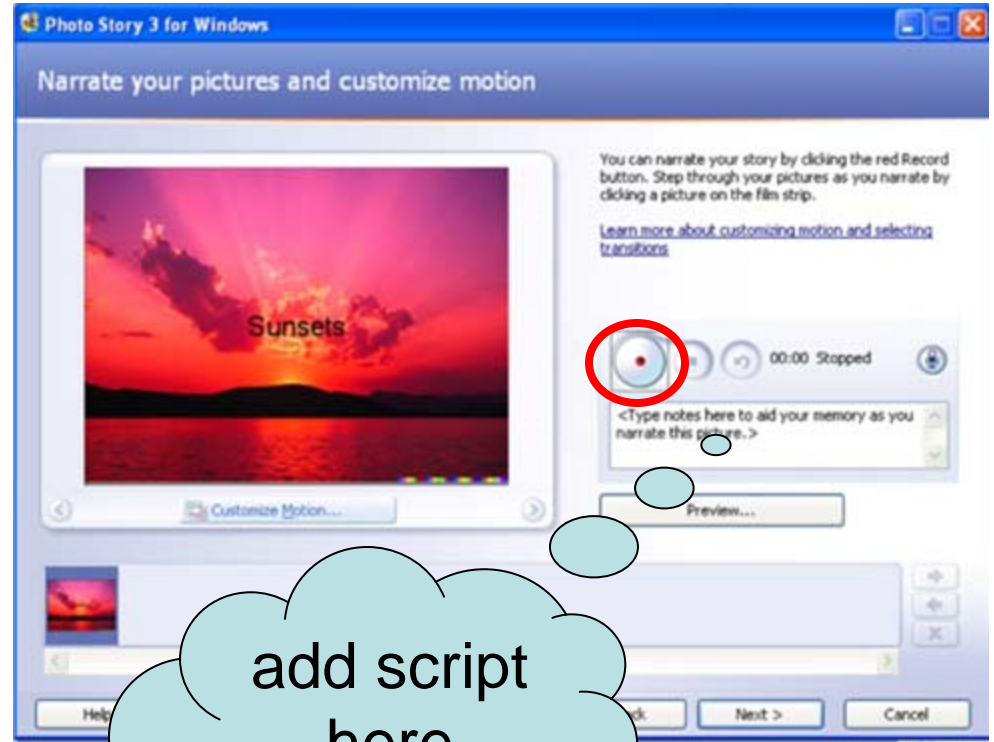

Adding Narration

10. Click on the Red button to record narration

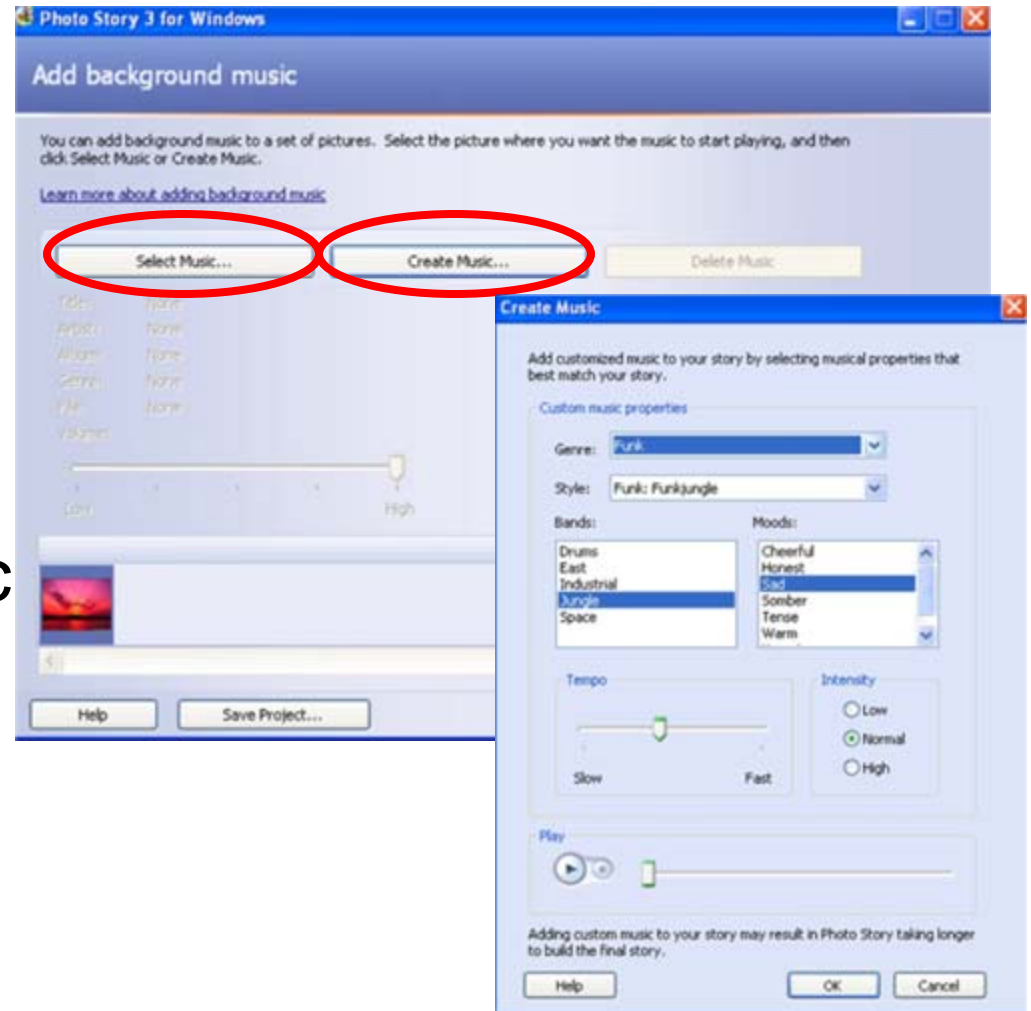

Hint!

Type in a script of your narration first – then read it after clicking the red button

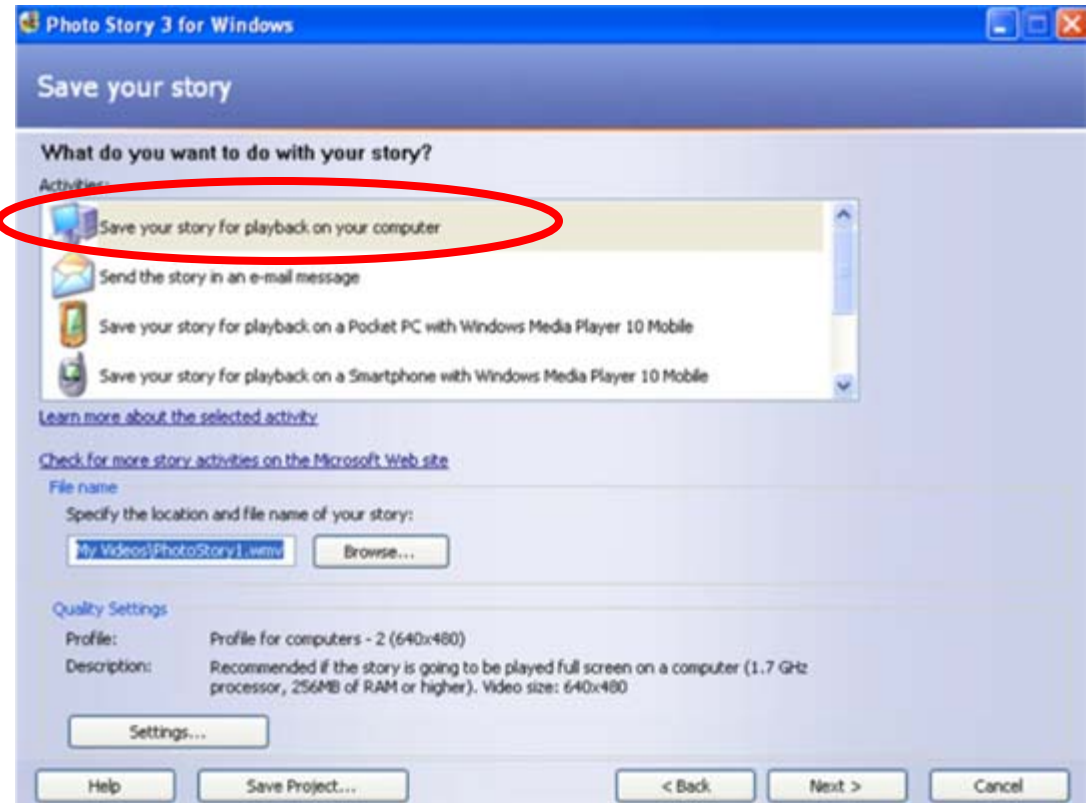

Adding Music

11. Add music from your computer (Select Music) or create your own from available PhotoStory music (Create Music)

Finishing Your Story

12. Choose to
Save your story
for playback on
your computer

Creating Your Own *PhotoStory*

**Create your own story
using DEstreaming images**
