

You're Invited to the Beyond the Textbook Day of Discovery

This event will provide area educators with an exciting and enriching day of professional development focused on creative ways to engage 21st century learners using digital media and technology.

Matt Monjan

Vice President of Strategic Account Implementation and DEN Account Management

Our keynote speaker, Matt Monjan, has blended technology and education for more ten years in the worlds of both business and K-12 instruction. Prior to joining the Discovery Education team in 2004, Matt designed, developed, and implemented adult education and certification programs for two of the largest trade associations in the country. At Discovery, Matt has worked with classroom teachers on the nuts and bolts of implementing technology and with administrators on using data from technology management to develop effective strategies for technology integration. He has pioneered innovative uses of often-neglected features of technologies such as closed captioning. He is currently the Vice President of Strategic Account Implementation and DEN Account Management. Matt speaks across the country including presentations at local, state, and regional conferences including CUE, eTech, Ohio, FETC, MASSCUE, MSET, PETE&C, and VSTE

Register Today!

Choose from multiple sessions, earn a certificate for your participation, win prizes, and network with nationally recognized K-12 experts.

Saturday, May 7, 2011
